WHO WE ARE

SKAI embodies limitless growth and possibilities. Powered by advanced AI technology, SKAI breaks barriers and sparks transformative change across industries. As a global leader in innovation, SKAI is shaping the future and inspiring progress worldwide.

BRAND ESSENCE

Inspired by our brand name "SKAI"—phonetically evoking "sky"—our corporate and brand identity embodies the boundless spirit and visionary essence of the sky. This symbolism is reflected in our core messages, visual language, and design philosophy. Our brand slogan, "Limitless AI. Limitless Ascent.", captures our spirit of innovation and expansion, reinforcing our commitment to pushing the boundaries of AI technology.

Just as the sky connects the world without boundaries, SKAI seamlessly integrates AI-driven solutions across industries, empowering businesses to soar to new heights.

2.1 Clear Space

Clear space is the minimum required area surrounding the logo, which must remain free of graphics, text, or any other visual elements. Strict adherence to this guideline is essential to ensure the logo remains clear and effective.

2.2 Minimum Size

The minimum size guidelines ensure optimal readability and recognizability of the logo across various digital and print media.

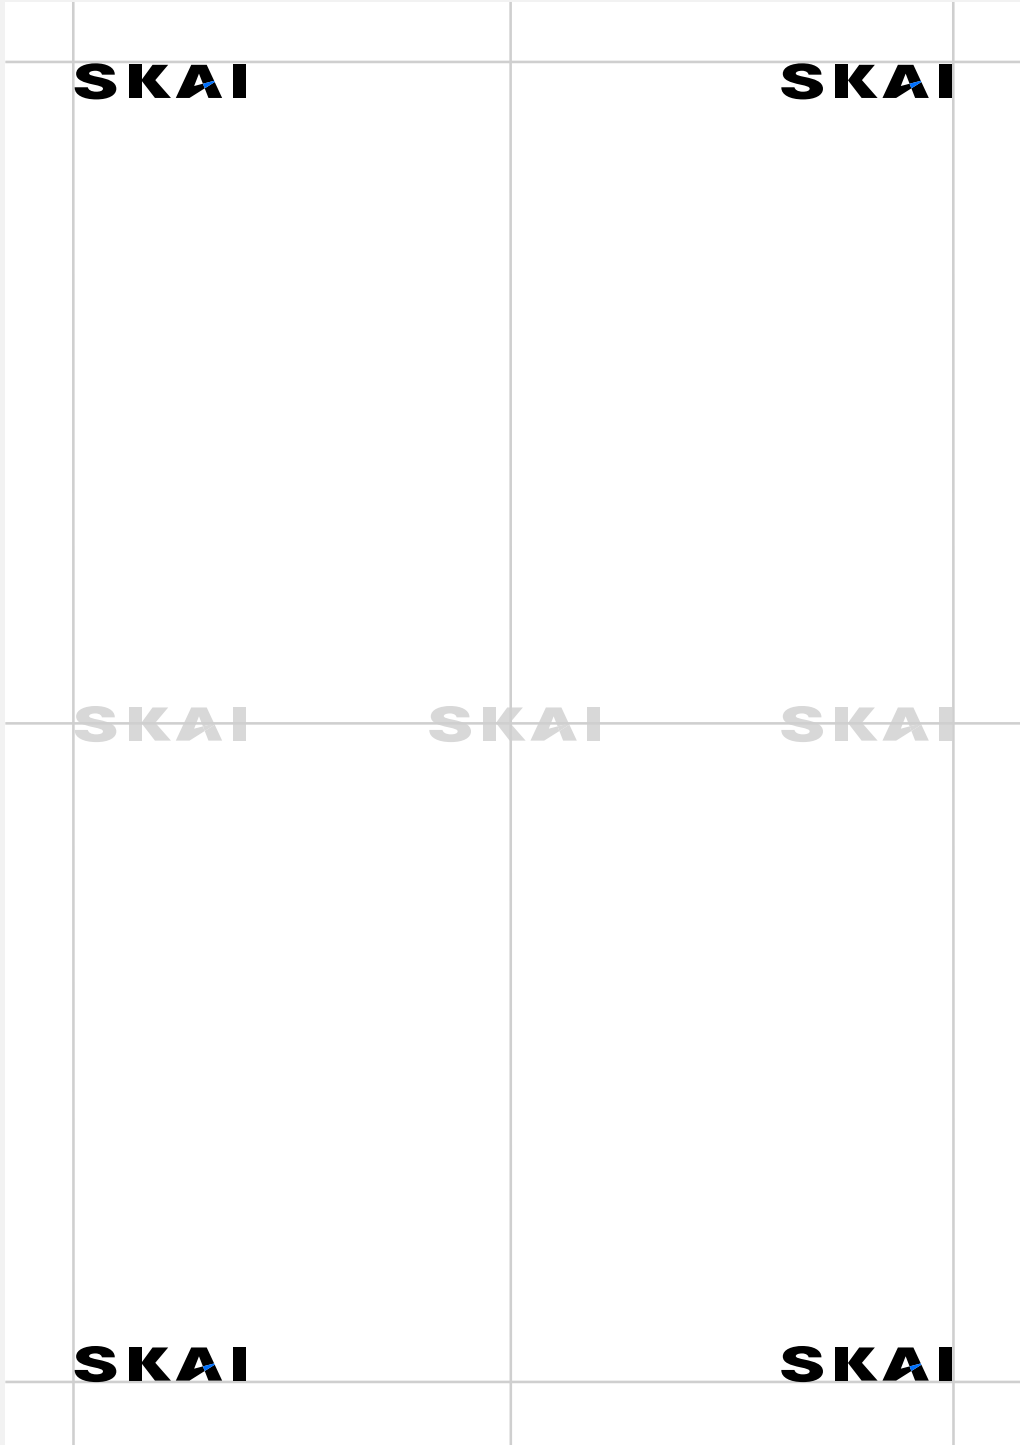

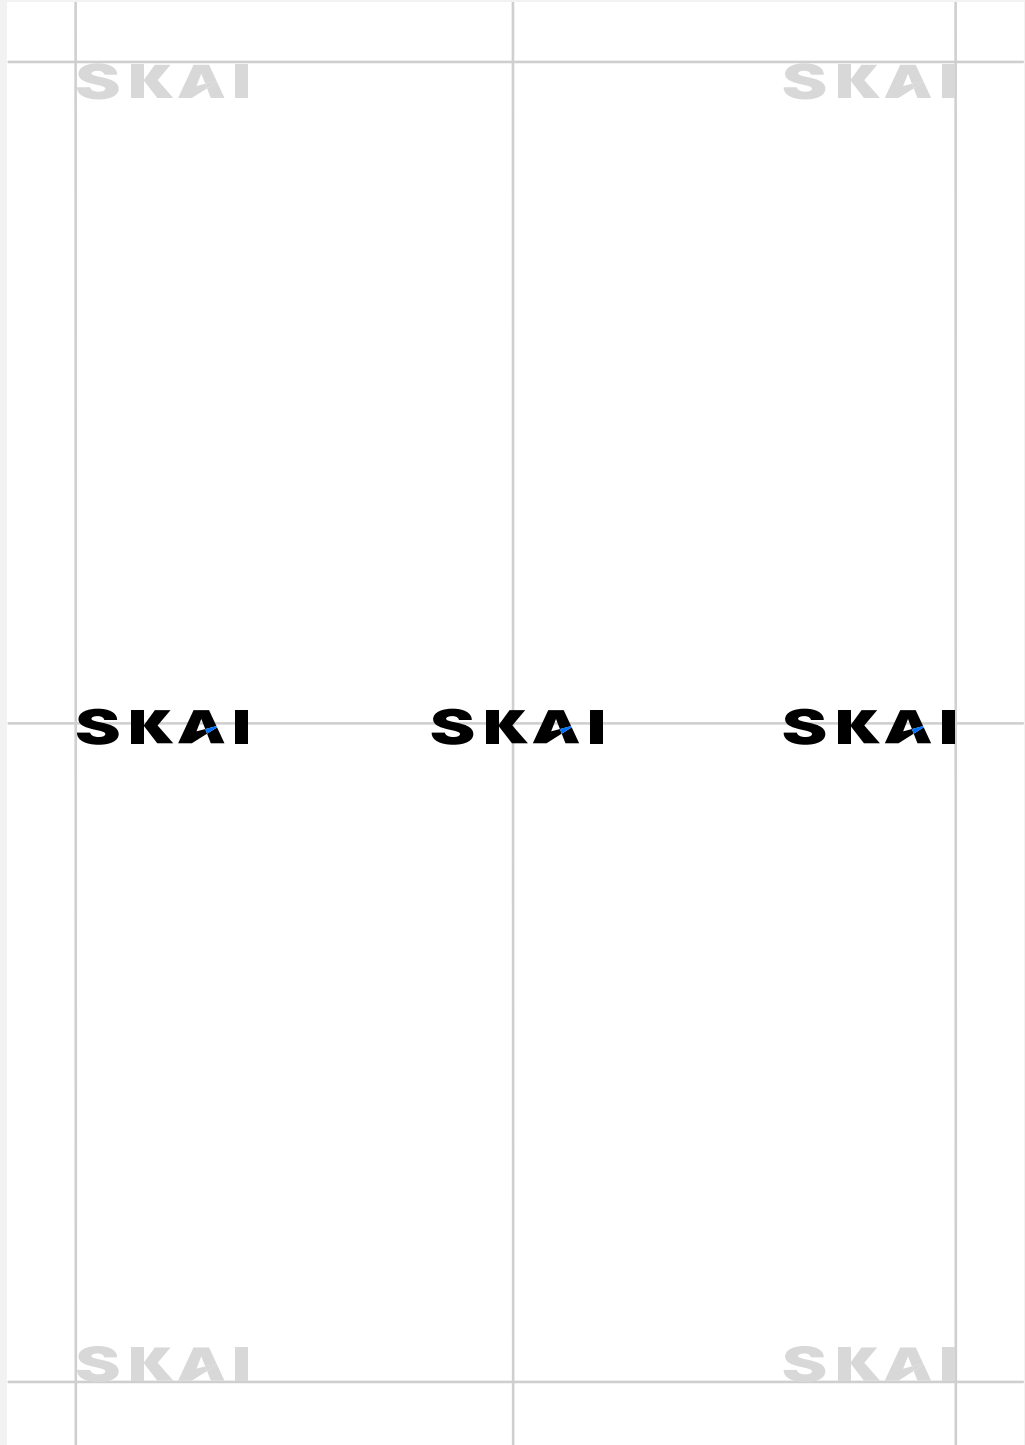

Digital Media (Web / Mobile)

- Recommended minimum size: 64px
- For favicons: 16px

Print Media

- Business cards: 25mm
- A4 documents, brochures, pamphlets, posters: 25mm
- For high-resolution prints, size adjustments may be made after checking legibility.

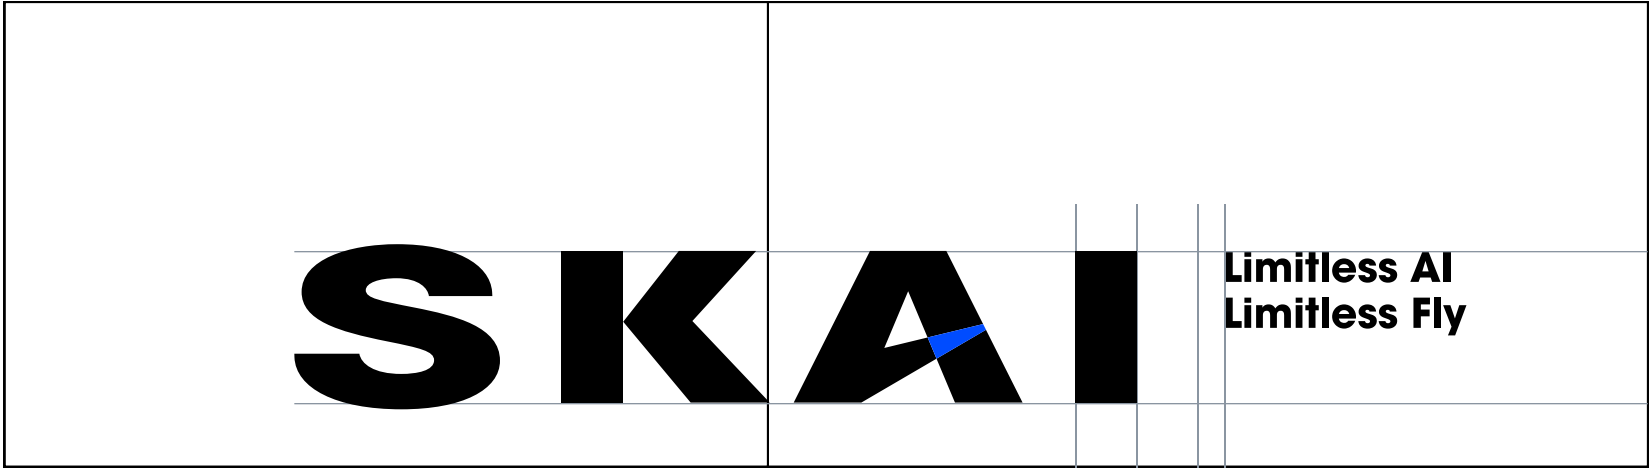

2.3 Placement

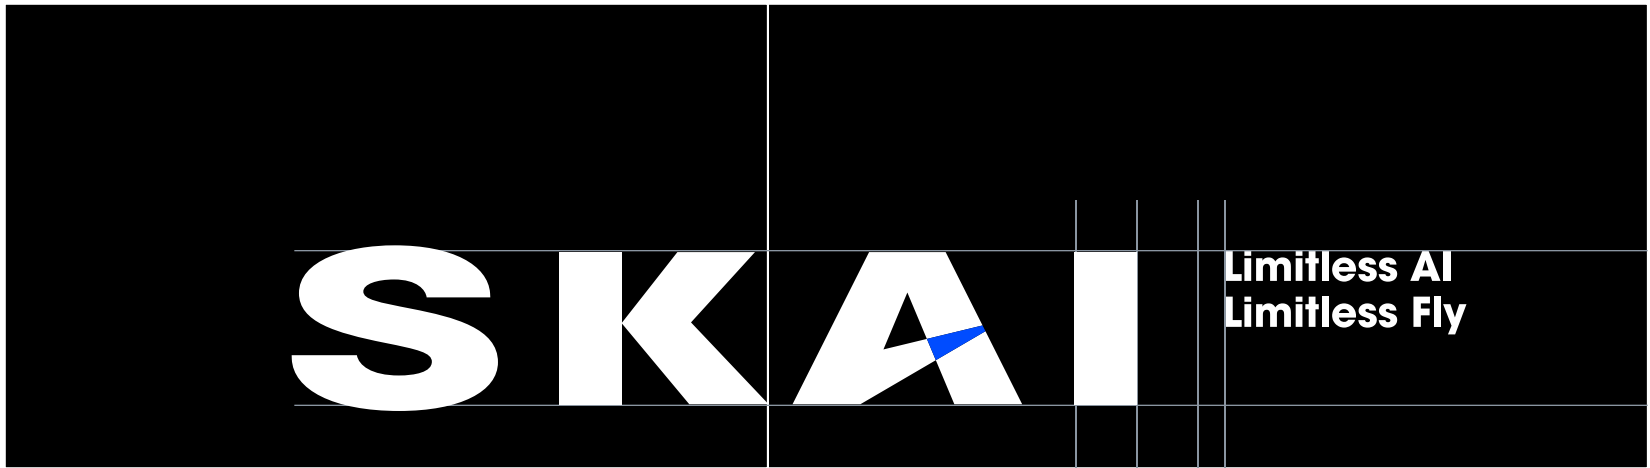

Consider the purpose and context when positioning the logo. To emphasize brand identity, place the logo centrally. When content visibility is a priority, position the logo in one of the corners.

2.4 Usage on Backgrounds

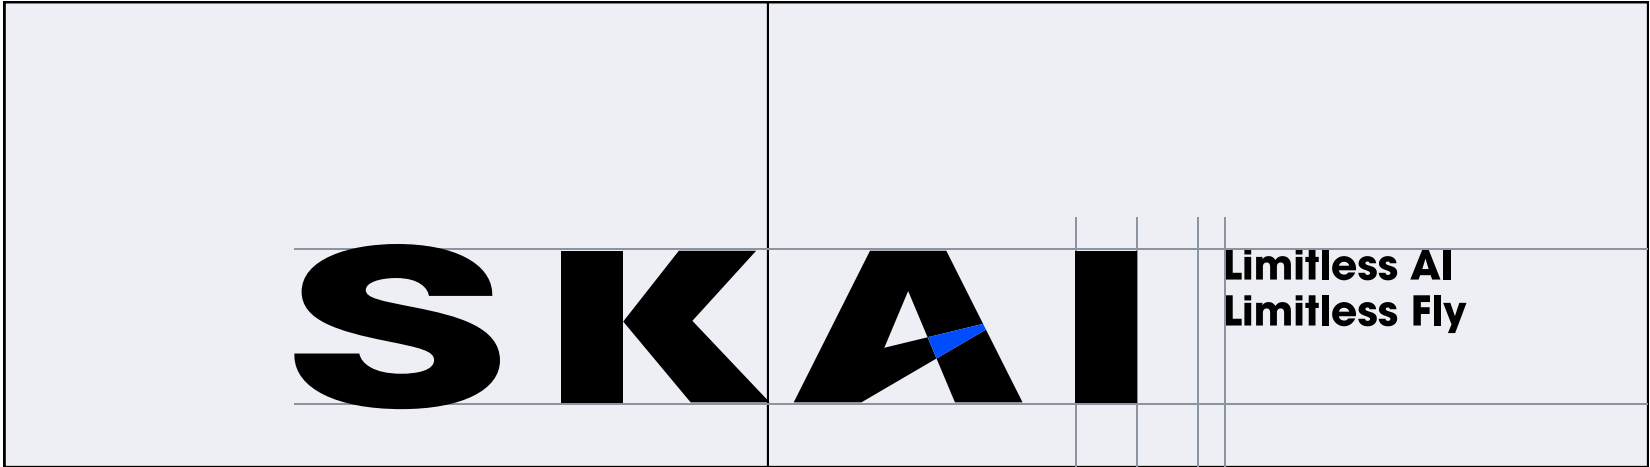

White & Black

Black & White

Horizon White & Black

Use the SKAI logo with the blue accent color on neutral backgrounds (e.g., white, black) to ensure optimal contrast and brand visibility.

2.5 One-color Use

SKAI Blue & White

Cosmic Blue & White

Limitless Blue & White

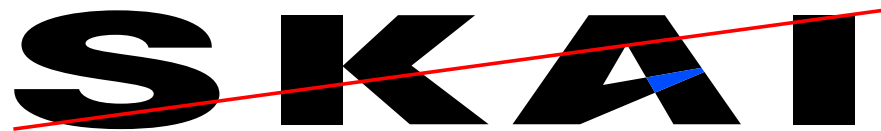

Photo Background & White

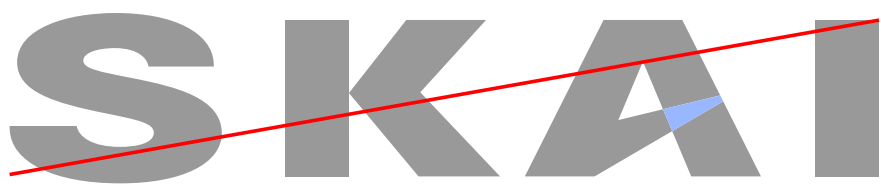

The monochrome logo must be placed on photographic backgrounds or colors defined in the SKAI color palette. The monochrome logo should only be used in white or black.

2.6 Logo Misuse

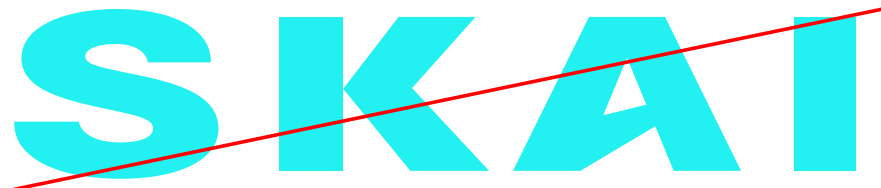

Do not distort the logo.

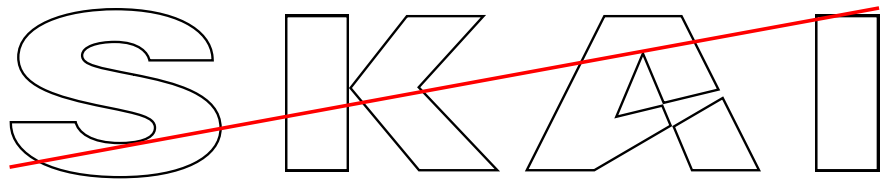

Do not change transparency of the logo.

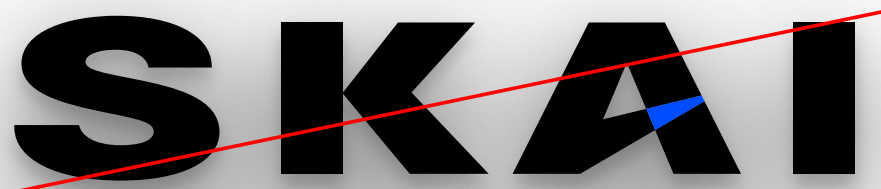

Do not use logo color variations that have not been approved.

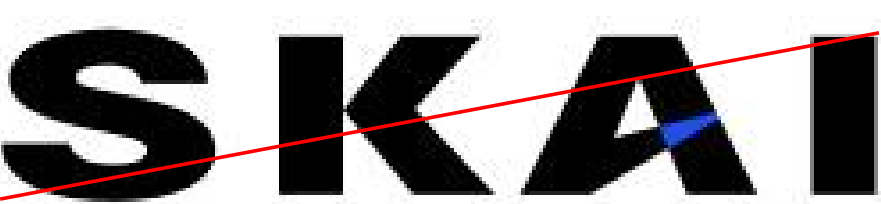

Do not outline logo type.

Do not use drop shadows or any other effects

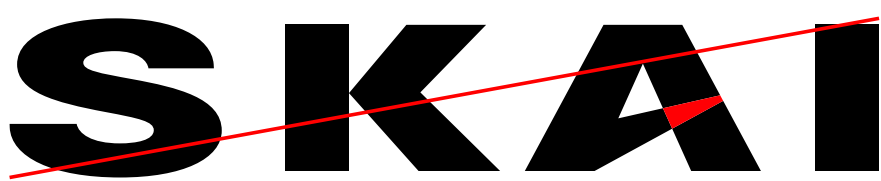

Do not use low resolution logo

Avoid using background images with colors similar to the logo.

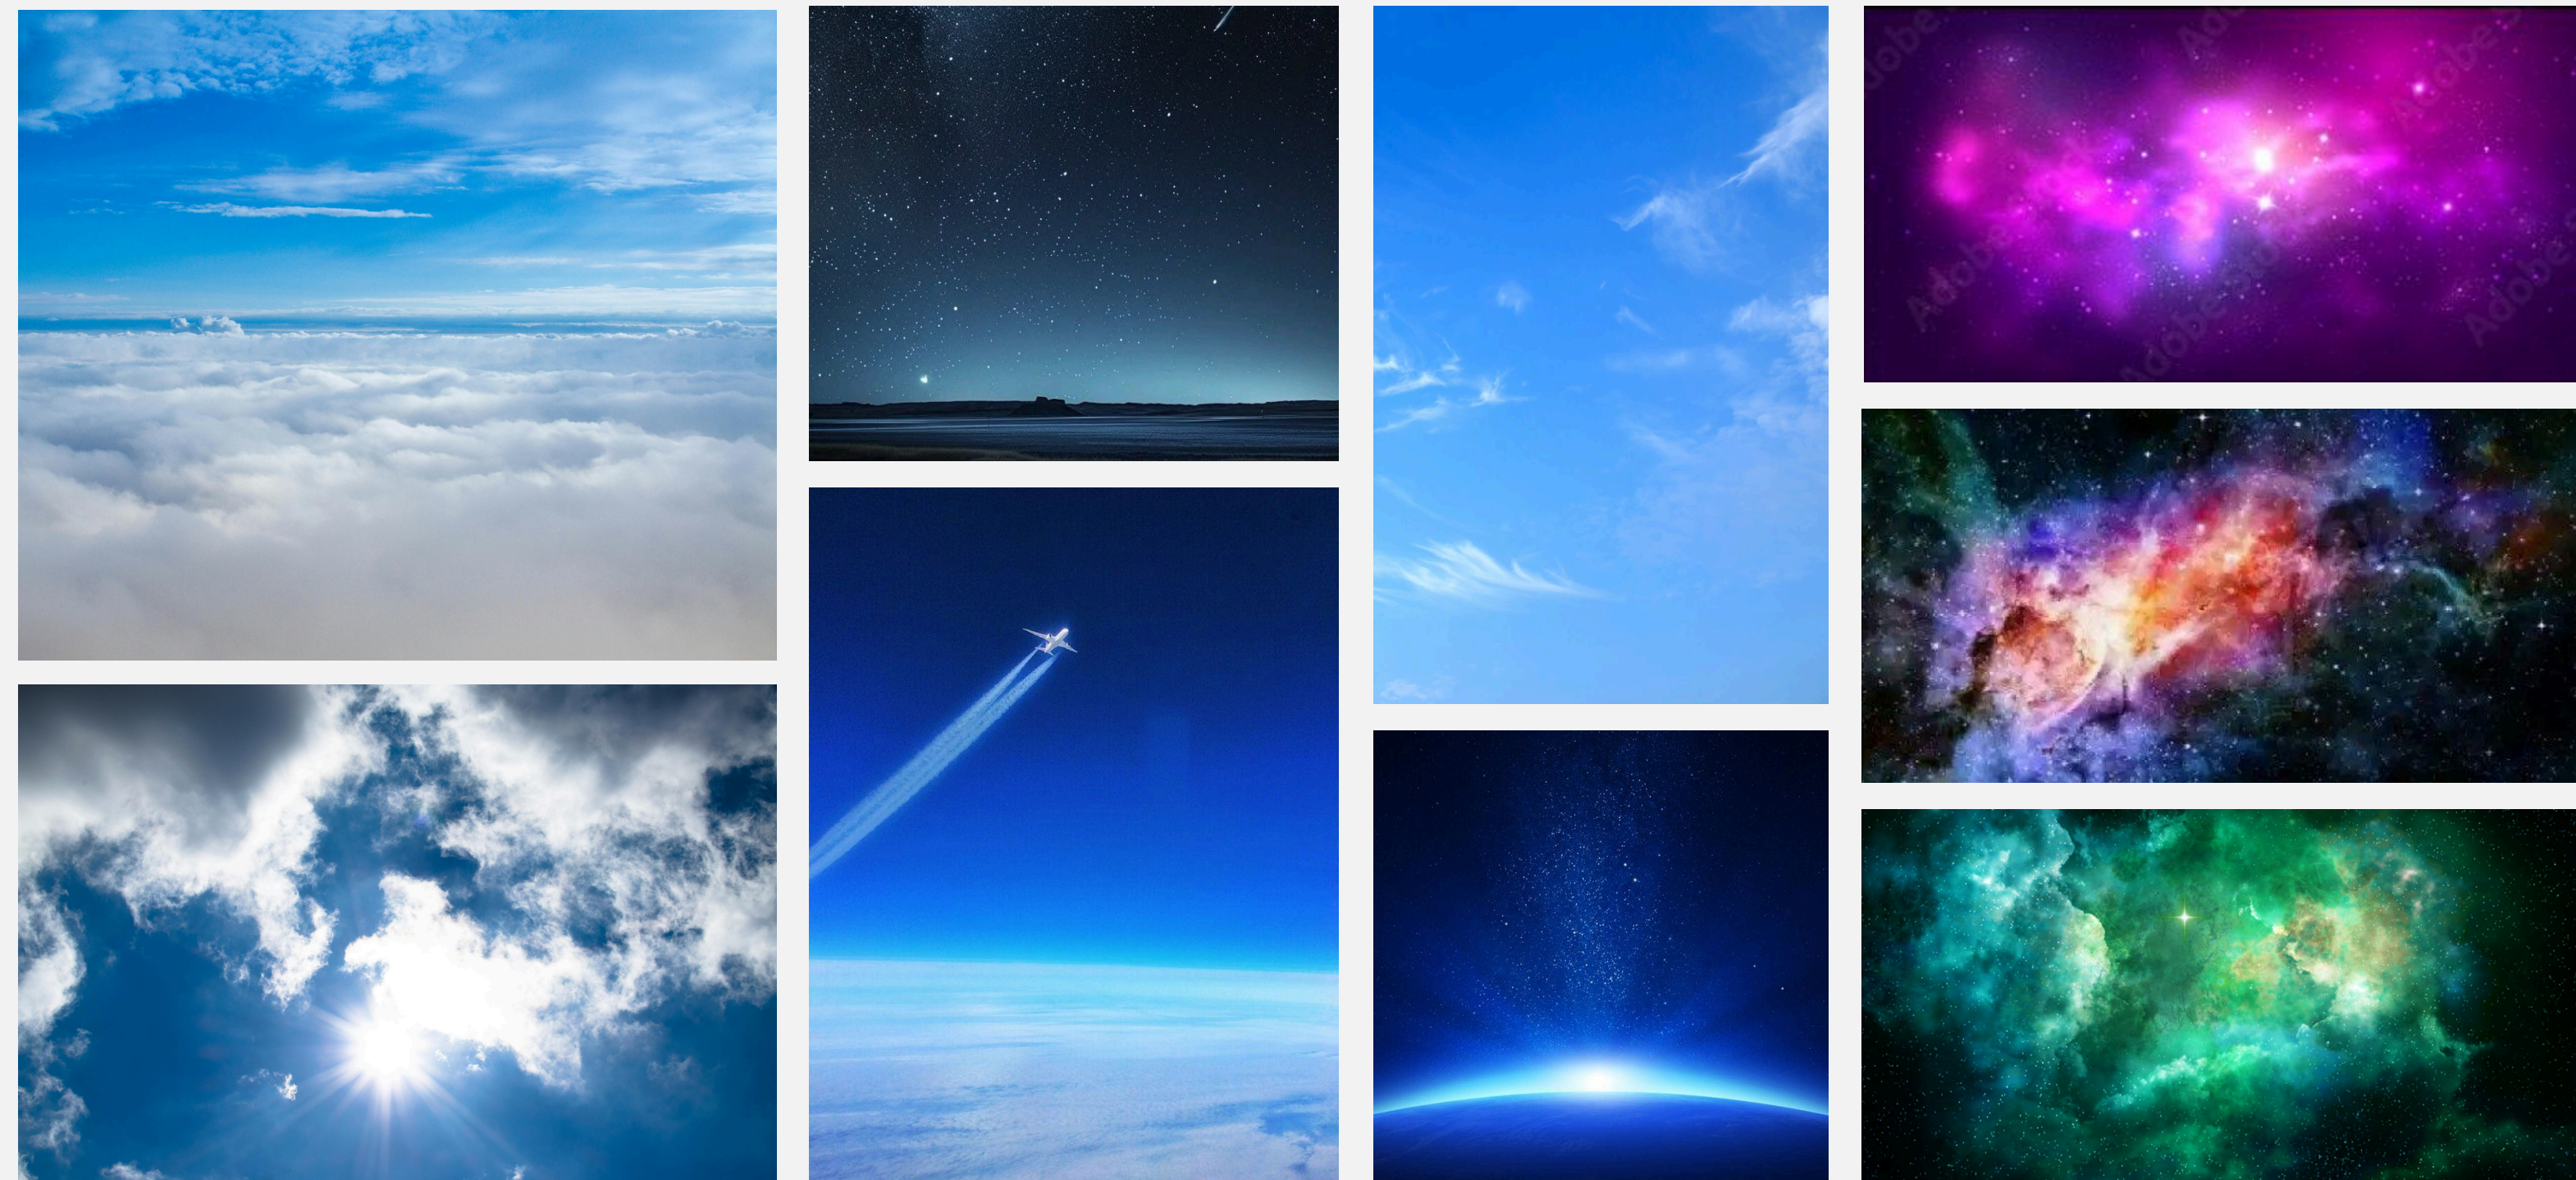

Do not change the accent color.

COLORS OF SKAI

SKAI's brand colors are inspired by the sky, symbolizing limitless possibilities, continuous growth, and soaring aspirations. They also draw inspiration from the vast universe beyond, representing creation and transformation.

SKAI Color Identity : "Beyond Limits, Above the Sky"

The SKAI brand colors represent the limitless potential of AI technology and the brand’s journey toward the future. Each color embodies SKAI’s vision and philosophy, capturing the evolution of AI as it connects and transforms the world.

“Above the Sky, Unlocking Horizons”

SKAI Blue

#004DFF
R0 G77 B255
C91 M64 Y0 K0

“Innovation for Limitless Possibilities”

Limitless Blue

#04245C
R4 G36 B92
C100 M92 Y33 K30

SKAI Blue(#004DFF)

The color reflects SKAI’s vision of ascending toward the future, symbolizing innovation and the drive to push boundaries. The vibrant, clear blue tone conveys trust, expertise, and a dynamic sense of momentum toward the possibilities ahead.

Limitless Blue(#04245C)

The color represents the fusion of innovative thinking and the power of AI, opening doors to new possibilities. It symbolizes scalability for the future and the limitless potential for growth.

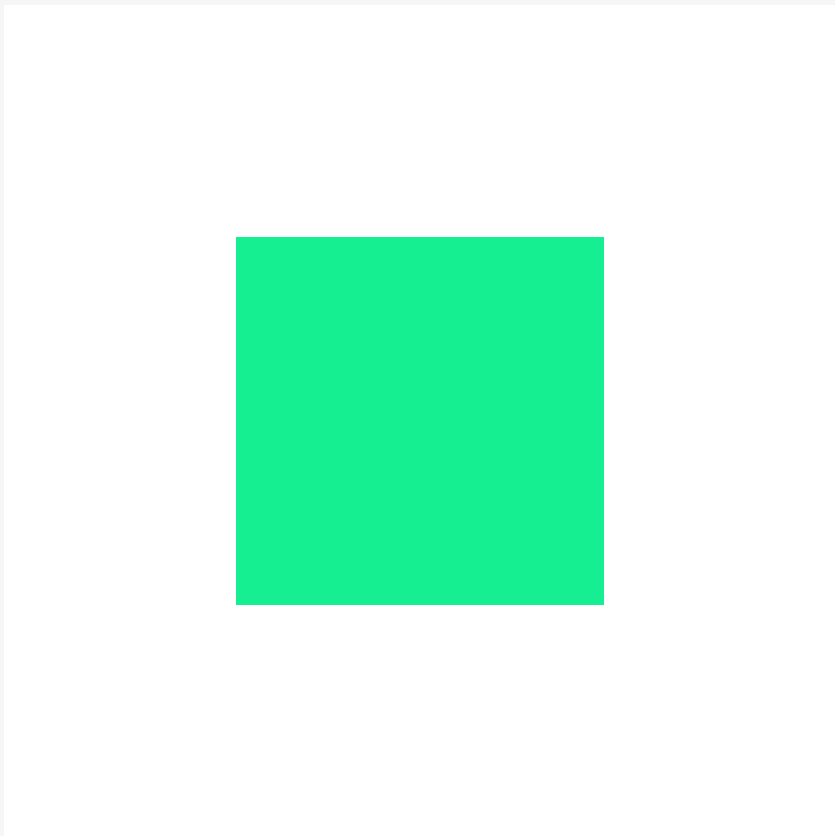

Establish a strong and cohesive brand identity by consistently applying these colors across digital platforms, presentations, and various brand materials.

3.2 Secondary Colors

	Color Story	Use		Color Story	Use
White #FFFFFF R255 G255 B255 C0 M0 Y0 K0	A fresh canvas for collaboration and mutual growth.	Background / Text	Beyond Cloud #C8E3FF R200 G227 B255 C19 M04 Y0 K0	A bright and transparent blue that evokes a sense of openness and clarity.	Shading / Presentation / Chart
Horizon White #EEF0F4 R238 G240 B244 C5 M3 Y2 K0	A background color close to white, symbolizing a leap into a new dimension.	Background / Text	Fly High #00AFFF R0 G175 B255 C85 M10 Y0 K0	The bright and vibrant sky blue symbolizes innovation and new energy.	Headline / Presentation / Chart
Cloud Gray #DFE3E9 R223 G227 B233 C11 M7 Y4 K0	The subtle depth of gray represents the intricate algorithms working within. The SKAI color palette draws inspiration from the sky and galactic nebulae, optimized to deliver maximum impact across diverse channels, including digital platforms, presentations, and promotional materials.

3.3 Accent Colors

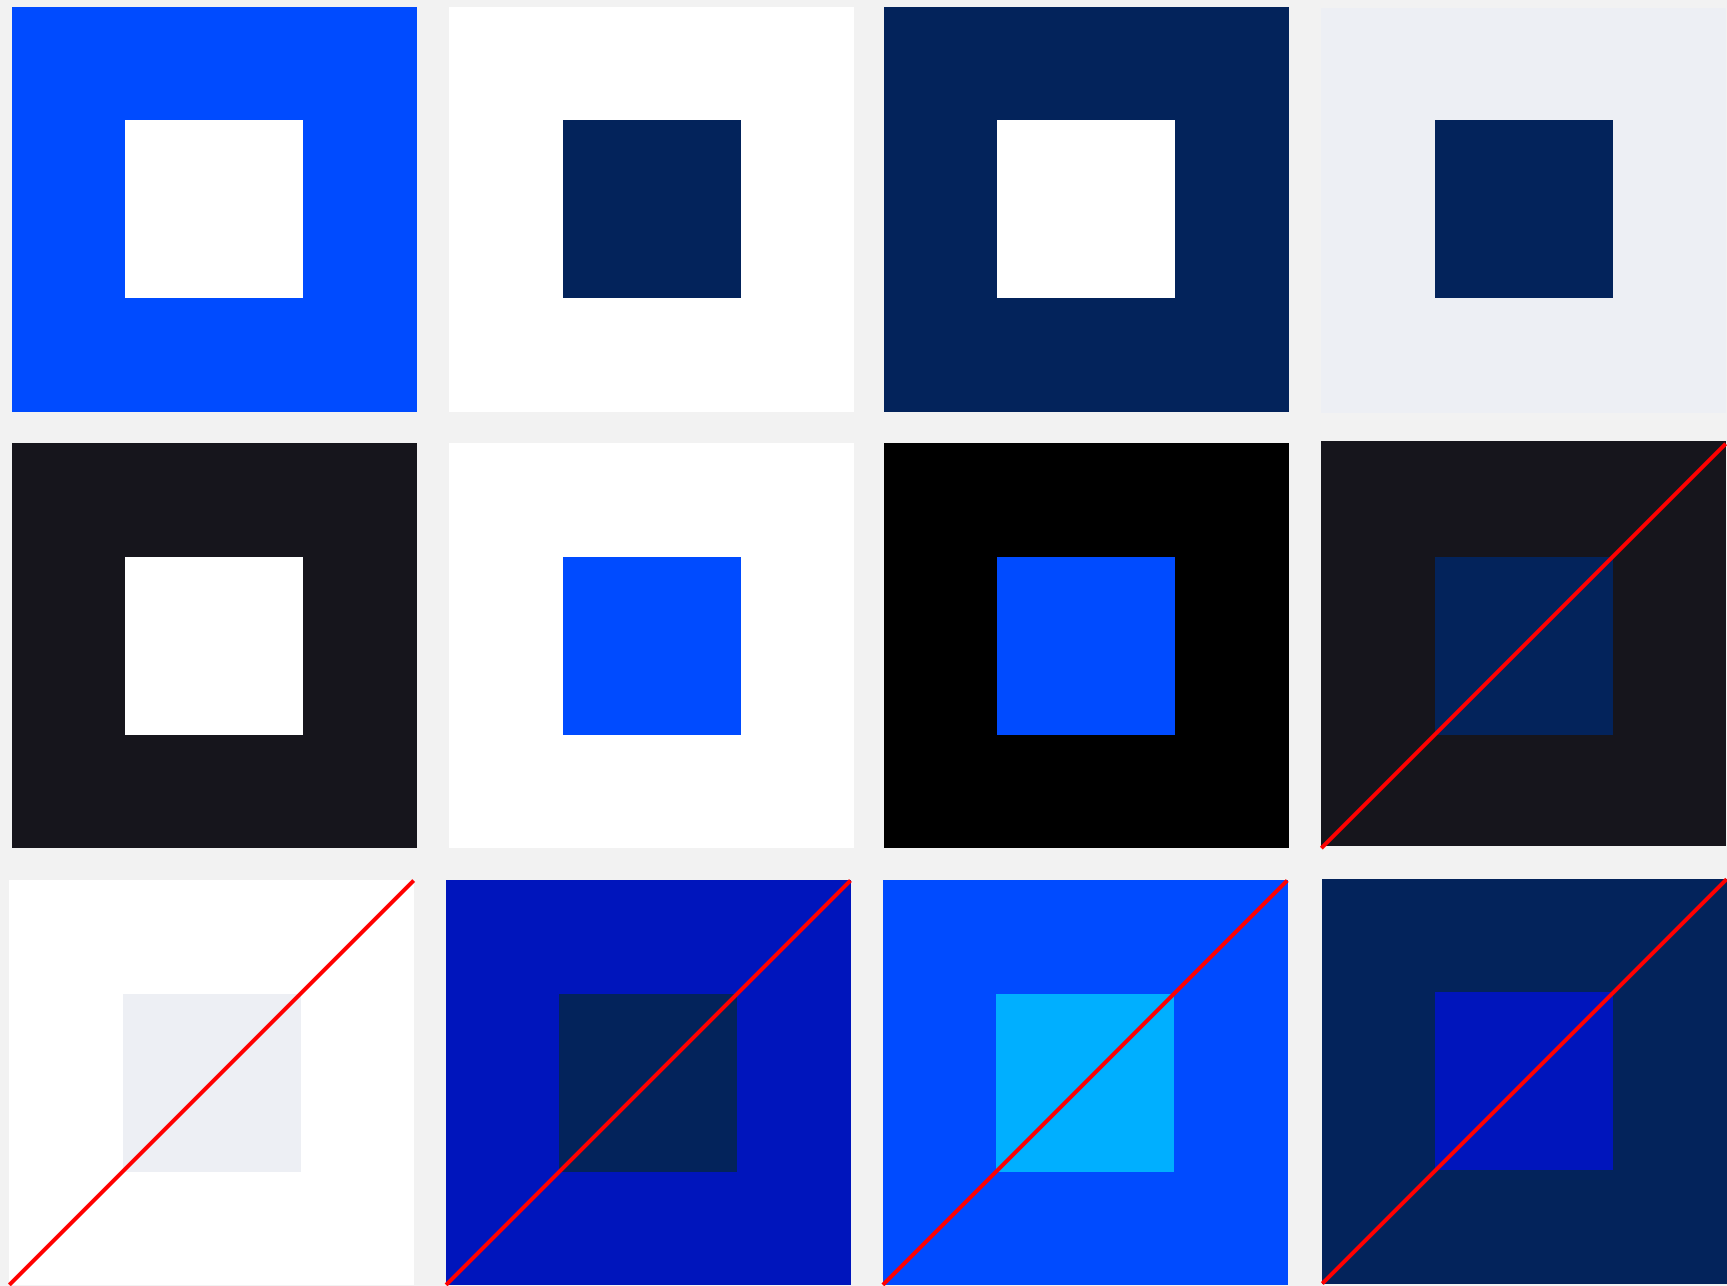

Color Story	Use
The color symbolizes SKAI’s dynamic growth andcommitment to sustainability.	Highlights / Graphics / Chart (When using this color for text on a white background, legibility may be compromised, therefore, it’s recommended to apply it sparingly in select areas.)

Color Story	Use
The color represents bold creativity and a transformative, visionary outlook.	Highlights / Graphics / Chart

The accent color is used to highlight key elements, such as text, icons, and graphic details, across various applications, including digital platforms, presentations, and printed materials.

3.4 Color Combinations: Solid

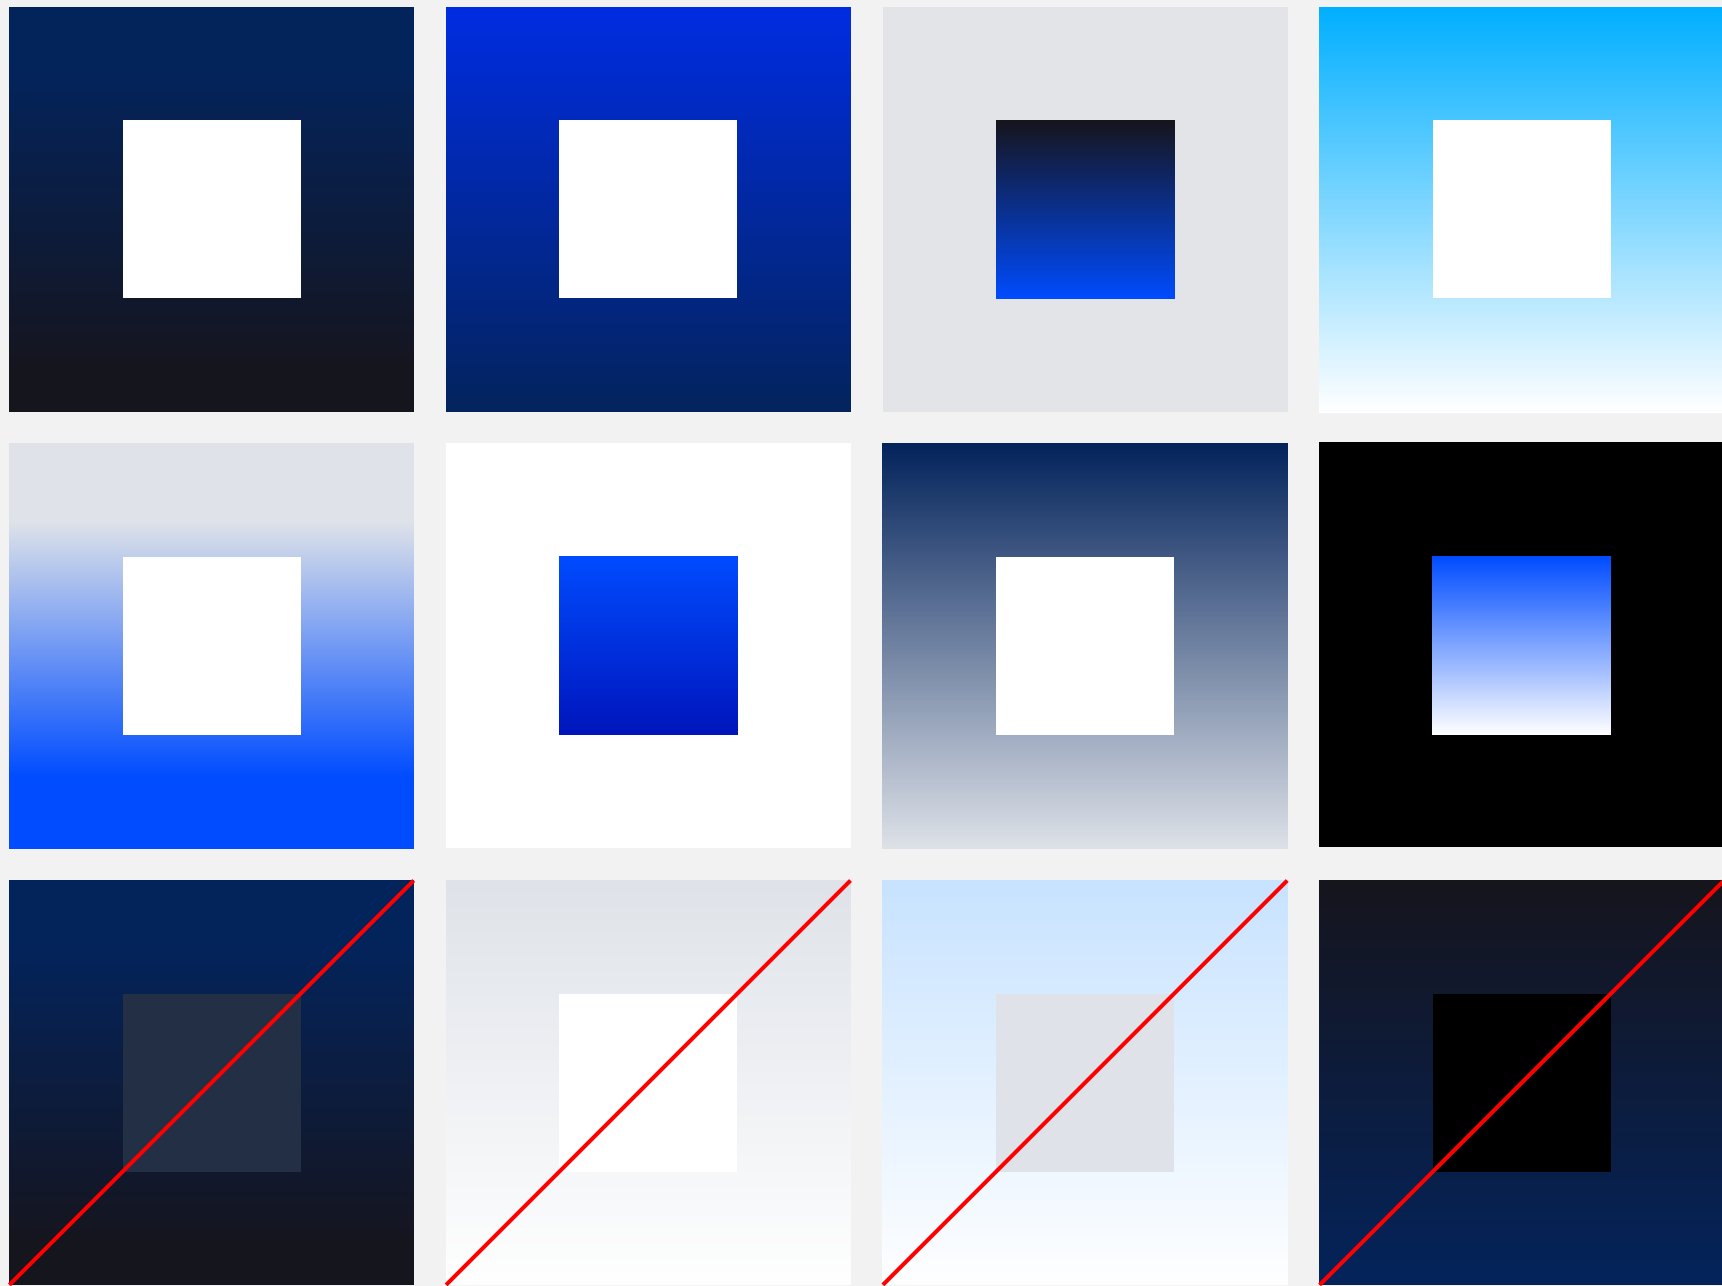

The main color can be applied to graphics or text on white or black backgrounds.

When using dark gray or dark blue backgrounds, select colors that provide sufficient contrast for optimal visibility.
Any use of non-brand colors in combination with brand colors requires prior approval from the Marketing & Communications Department.

This guide outlines the proper combination of Main and Sub Colors. Colors should be used strictly according to the specified guidelines. For any other color combinations, approval from the Marketing Communications Department, responsible for brand management, is required.

3.5 Color Combinations: Gradation

Gradient colors such as Black, White, and SKAI Blue can be applied to graphic assets. When using black or blue-based gradients in the background, white is recommended for text and design elements.

When using gradients composed of Black, White, and SKAI Blue in the background, ensure that foreground colors have sufficient contrast.

This guide outlines the proper combination of Main and Sub Colors. Colors should be used strictly according to the specified guidelines. For any other color combinations, approval is required from the Marketing Communications Department, which is responsible for brand management.

Limitless AI. Infinite Possibilities.

Empowering industries with cutting-edge AI solutions that push boundaries and redefine innovation.

SKAI Worldwide has launched a cutting-edge AI marketing solutions division, dedicated to crafting AI-driven hyper-personalized advertisements and marketing content that resonate deeply with audiences. Their strategic partnership with SKAI Intelligence revolutionizes marketing by fusing spatial intelligence with extensive 3D data libraries. This collaboration sets new benchmarks in AI-driven content creation, delivering unparalleled targeting precision and customized Gen AI solutions across industries.

최첨단 AI 솔루션으로 산업에 힘을 실어주며, 한계를 뛰어넘고 혁신을 재정의합니다.

SKAI Worldwide는 최첨단 AI 마케팅 솔루션 부서를 설립하여 AI 기반 초개인화 광고 및 마케팅 콘텐츠 제작에 집중하고 있습니다. 이 부서는 고객과 깊이 공감하는 맞춤형 광고를 제작하는 데 주력하며, SKAI Intelligence와의 전략적 협력을 통해 공간 지능과 방대한 3D 데이터 라이브러리를 결합하여 마케팅 혁신을 이루고 있습니다. 이러한 협업은 AI 기반 콘텐츠 제작의 새로운 기준을 제시하며, 산업 전반에 걸쳐 정밀한 타겟팅과 맞춤형 생성형 AI 솔루션을 제공함으로써 새로운 벤치마크를 세우고 있습니다.

Solid Icon Style

Solid-style icons reflecting SKAI’s brand colors are a key element in maintaining visual consistency. The icons convey a modern, tech-forward image through a blue gradient, clean geometric shapes, and minimalist design.

These icons are developed as a supporting graphic element to help illustrate technical content on websites and presentations.

- **Color:** The gradient, based on SKAI’s blue palette, adds depth and visual interest while maintaining a cohesive look.
- **Form:** Simplified geometric shapes minimize unnecessary detail and clearly express the core meaning of each icon.

Why

고객이 스카이월드와이드의 Graph RAG를 선택하는 이유는 명확합니다.

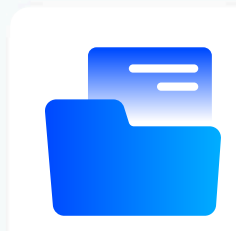

Graph 기반 검색 최적화

업무 기반 지식 그래프를 활용하여 생성형 AI의 환각 현상을 줄이고, 응답의 신뢰도를 높여 더욱 정확한 의사결정을 지원합니다.

증분 데이터의 자동 변환 및 반영

신규 및 변경 데이터를 자동으로 벡터 및 그래프 형태로 변환하여, 최신 정보를 실시간으로 반영할 수 있어, 보다 신속하고 정확한 의사결정이 가능합니다.

맞춤형 개인화 및 확장성

사용자 요구에 맞추어 RAG 환경을 최적화하고 기능을 확장할 수 있으며, Private 생성형 AI 모델과의 연동을 지원하여 더욱 강력한 AI 시스템을 구축할 수 있습니다.

Self 검증 API 제공

생성형 AI의 응답 신뢰도를 사용자 스스로 평가할 수 있도록 검증 지표를 생성하는 API를 제공합니다. 이를 통해 AI의 결과를 신뢰성 높은 데이터로 활용할 수 있습니다.

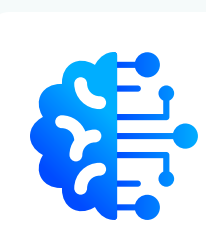

Usecase

스카이월드와이드의 Graph RAG는 다양한 산업에서 활용되며, 정확하고 신뢰도 높은 데이터 기반 의사결정을 지원합니다.

생성형 AI 챗봇의 정확성 및 신뢰성 강화

전문 지식과 대화형 생성 모델을 결합하여 고객 서비스 시스템을 자동화합니다. 이를 통해 기업은 신속한 이슈 대응과 정확한 답변을 제공하여 고객만족도를 높이고, 브랜드 신뢰도를 강화할 수 있습니다.

마케팅 콘텐츠 생성의 자동화 및 최적화

기업 정보를 RAG 시스템과 통합하여 비용을 절감하면서도 효과적인 카피라이팅 및 맞춤형 마케팅 콘텐츠를 자동 생성할 수 있습니다. 이를 통해 보다 효율적인 마케팅 전략을 실행할 수 있습니다.

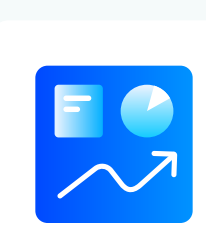

시장 동향 예측 및 리스크 관리

생성형 AI를 활용하여 기업은 시장 동향을 분석하고 리스크를 사전에 감지할 수 있습니다. 특히 유통 및 금융 업계에서는 소비자 구매 패턴 예측, 재고 최적화, 투자 리스크 평가 등의 전략을 강화할 수 있습니다.

복잡한 데이터 해석 및 미래 트렌드 예측

대규모 데이터를 정밀 분석하고, 미래 트렌드를 예측함으로써 보다 신속하고 정확한 의사 결정을 지원합니다. 이는 기업 운영 최적화, 시장 기회 탐색, 리스크 예방 등의 핵심적인 역할을 수행합니다.

Application Example_Conveying an Optimistic Message

Use bright colors such as SKAI Blue and White, which represent SKAI brand value, in background designs for posters or banners.

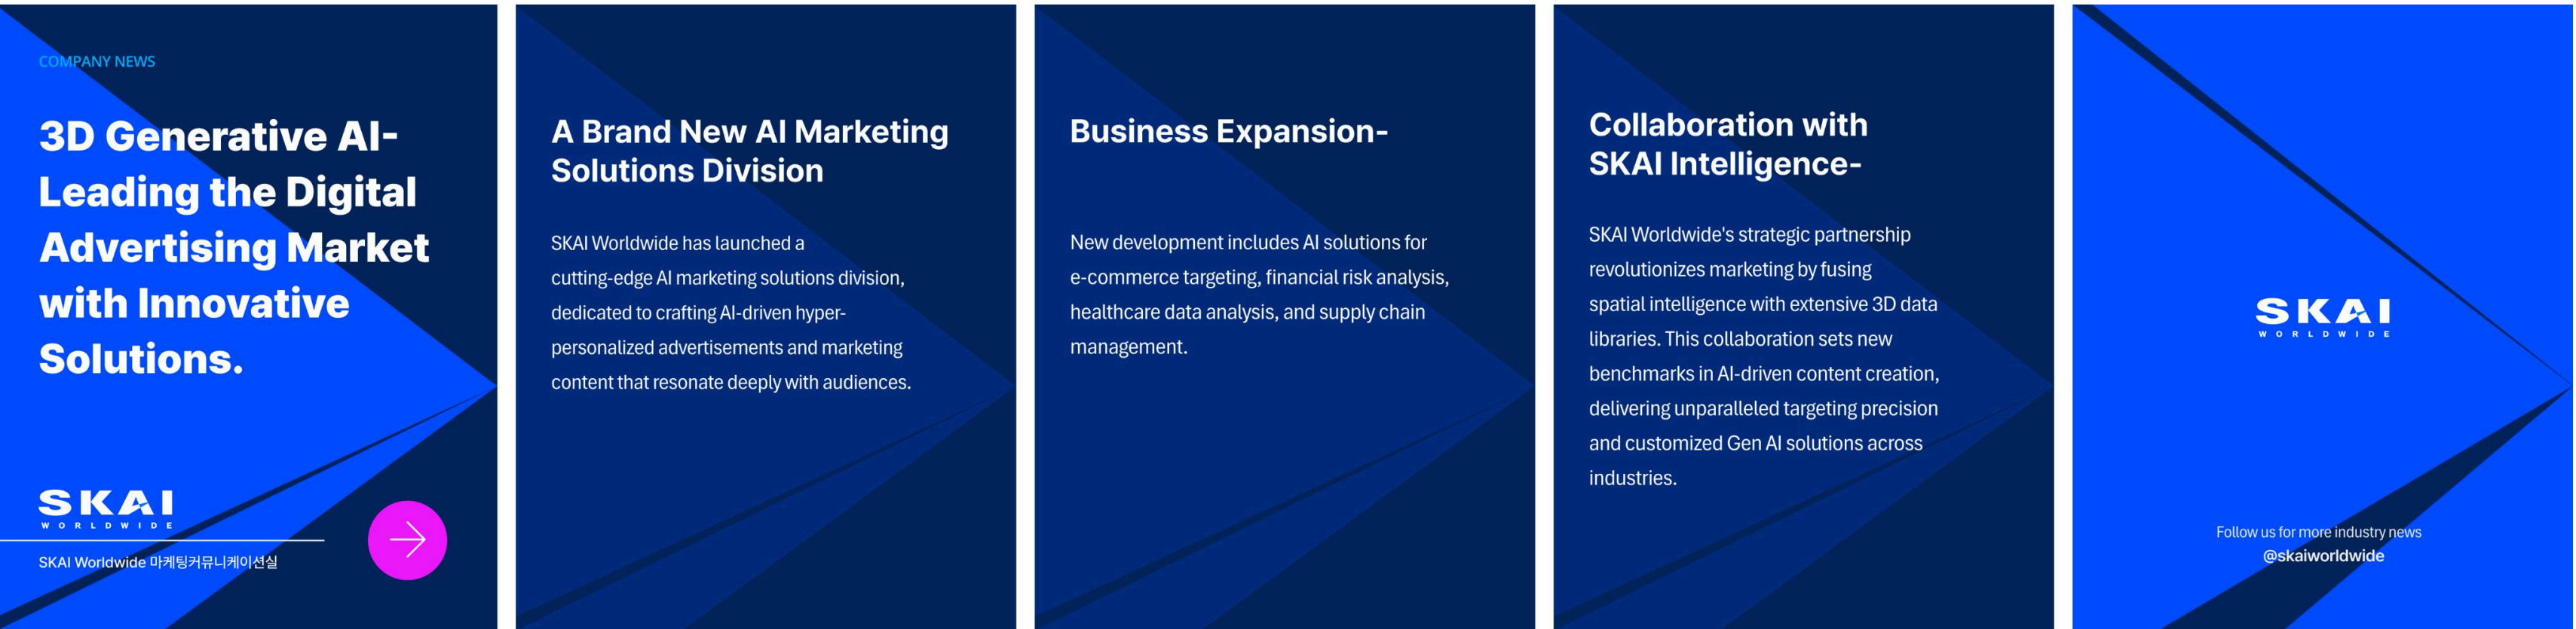

Keywords: Sky, Clouds, Light, Contrails, Skyline

If an image with a contrasting tone to the example is used, it must be reviewed and approved by the Marketing Communications Department, which oversees brand management.

Application Example_Conveying an Strategic Message

Use diagonal graphic elements inspired by the SKAI logo and symbol in background designs for card news, posters, and banners.
Keywords: SKAI BI, Fly, Innovation

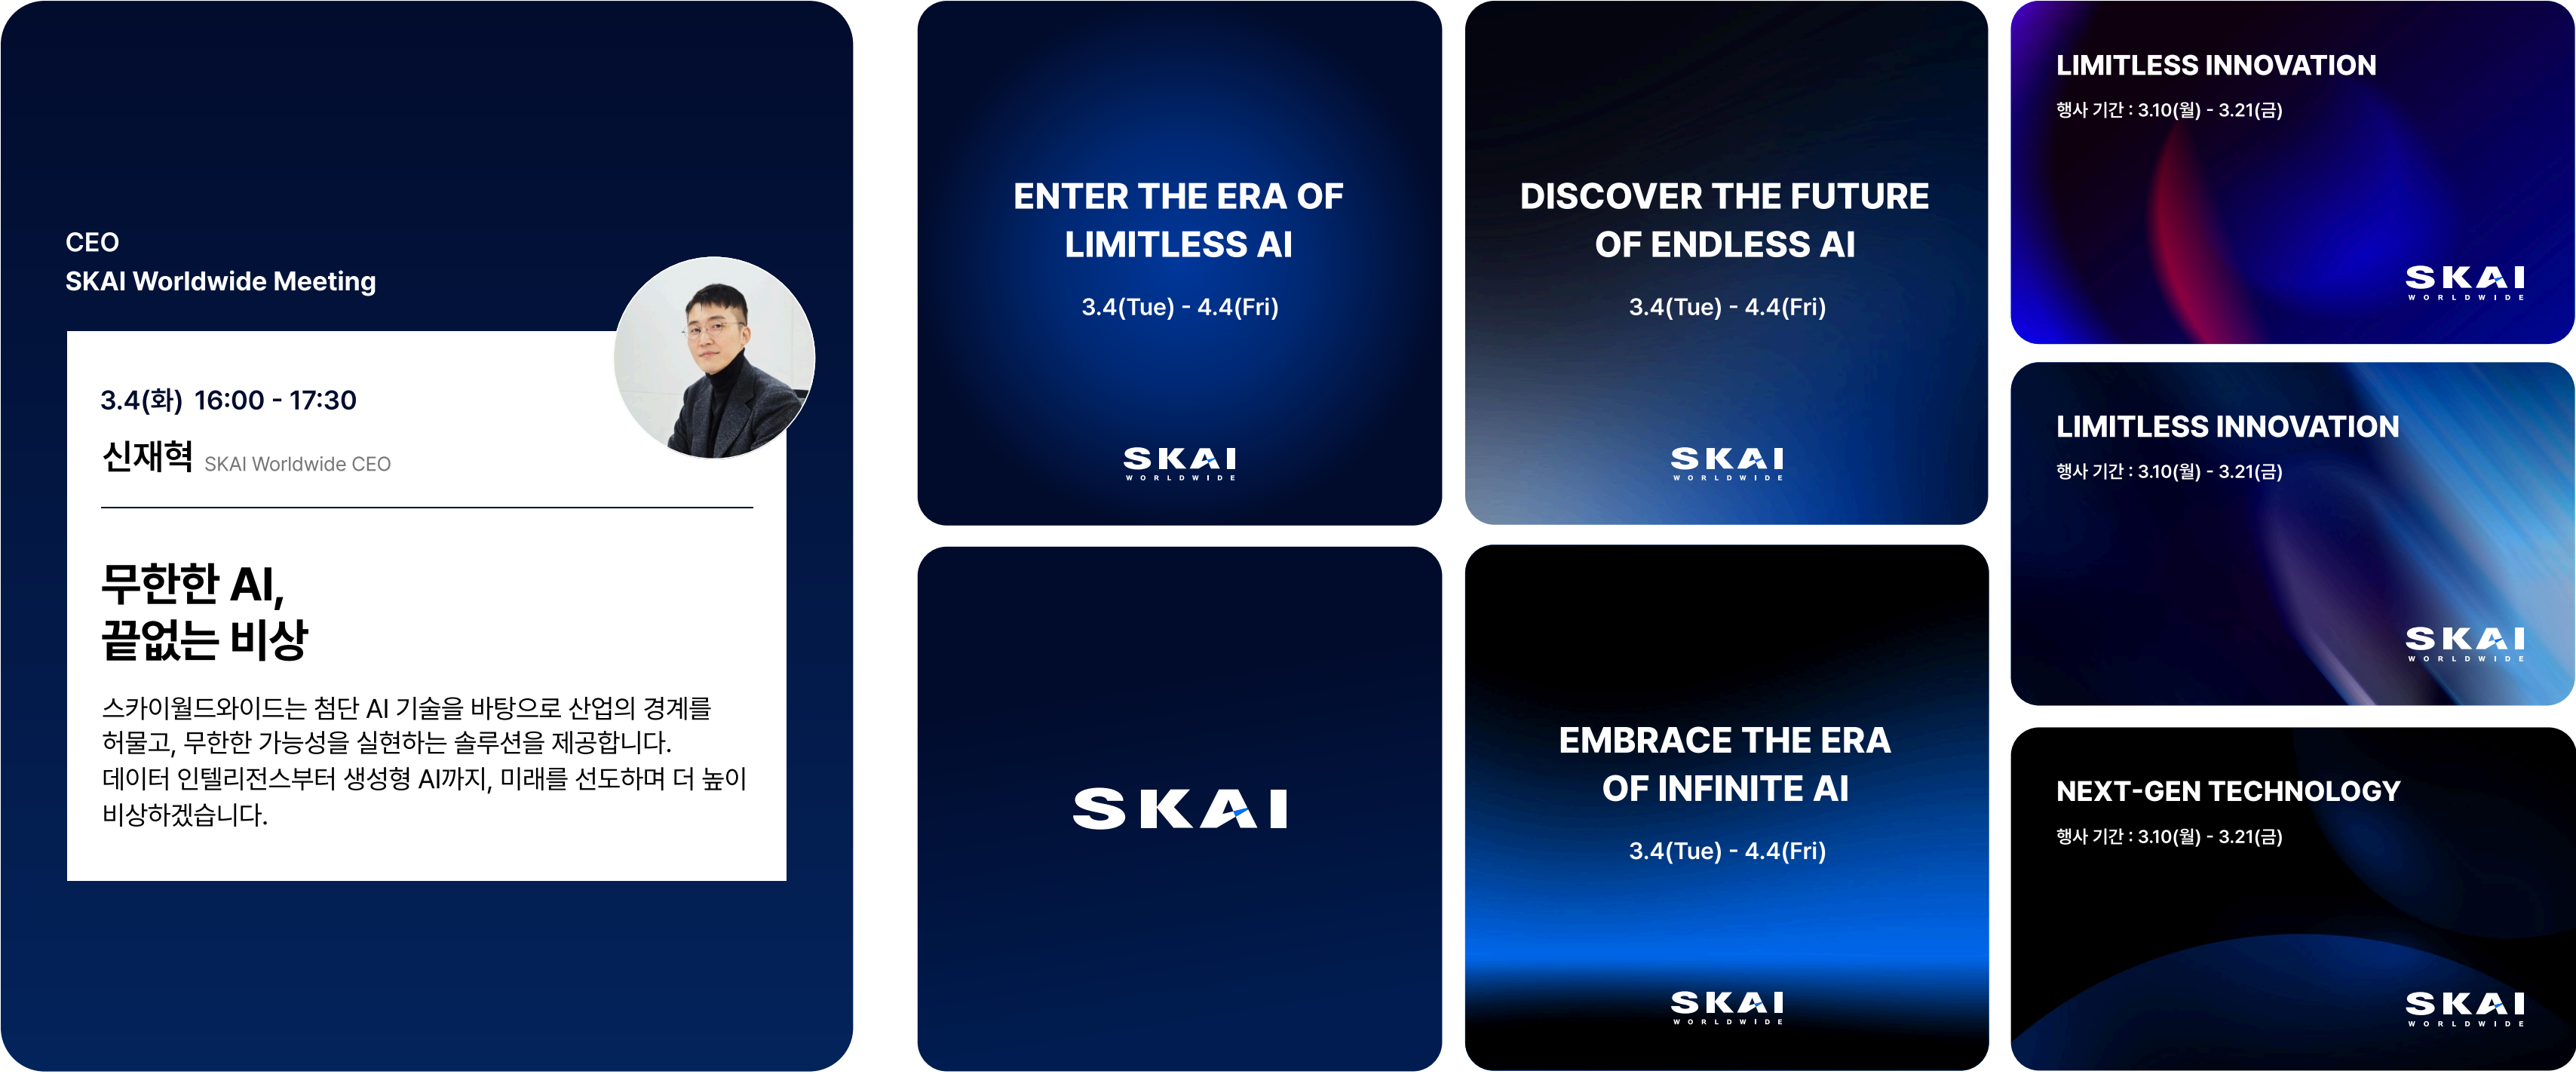

If an image with a contrasting tone to the example is used, it must be reviewed and approved by the Marketing Communications Department, which oversees brand management.

Application Example_Conveying Messages in Luxury Events or Formal Settings

Use dark colors such as Midnight and Limitless Blue—representing "Limitless," the core SKAI brand value of infinite possibility—in background designs for posters, banners, and related materials.

Keywords: Universe, Planetary Skyline, Planets, Aurora, Black Hole, White Hole

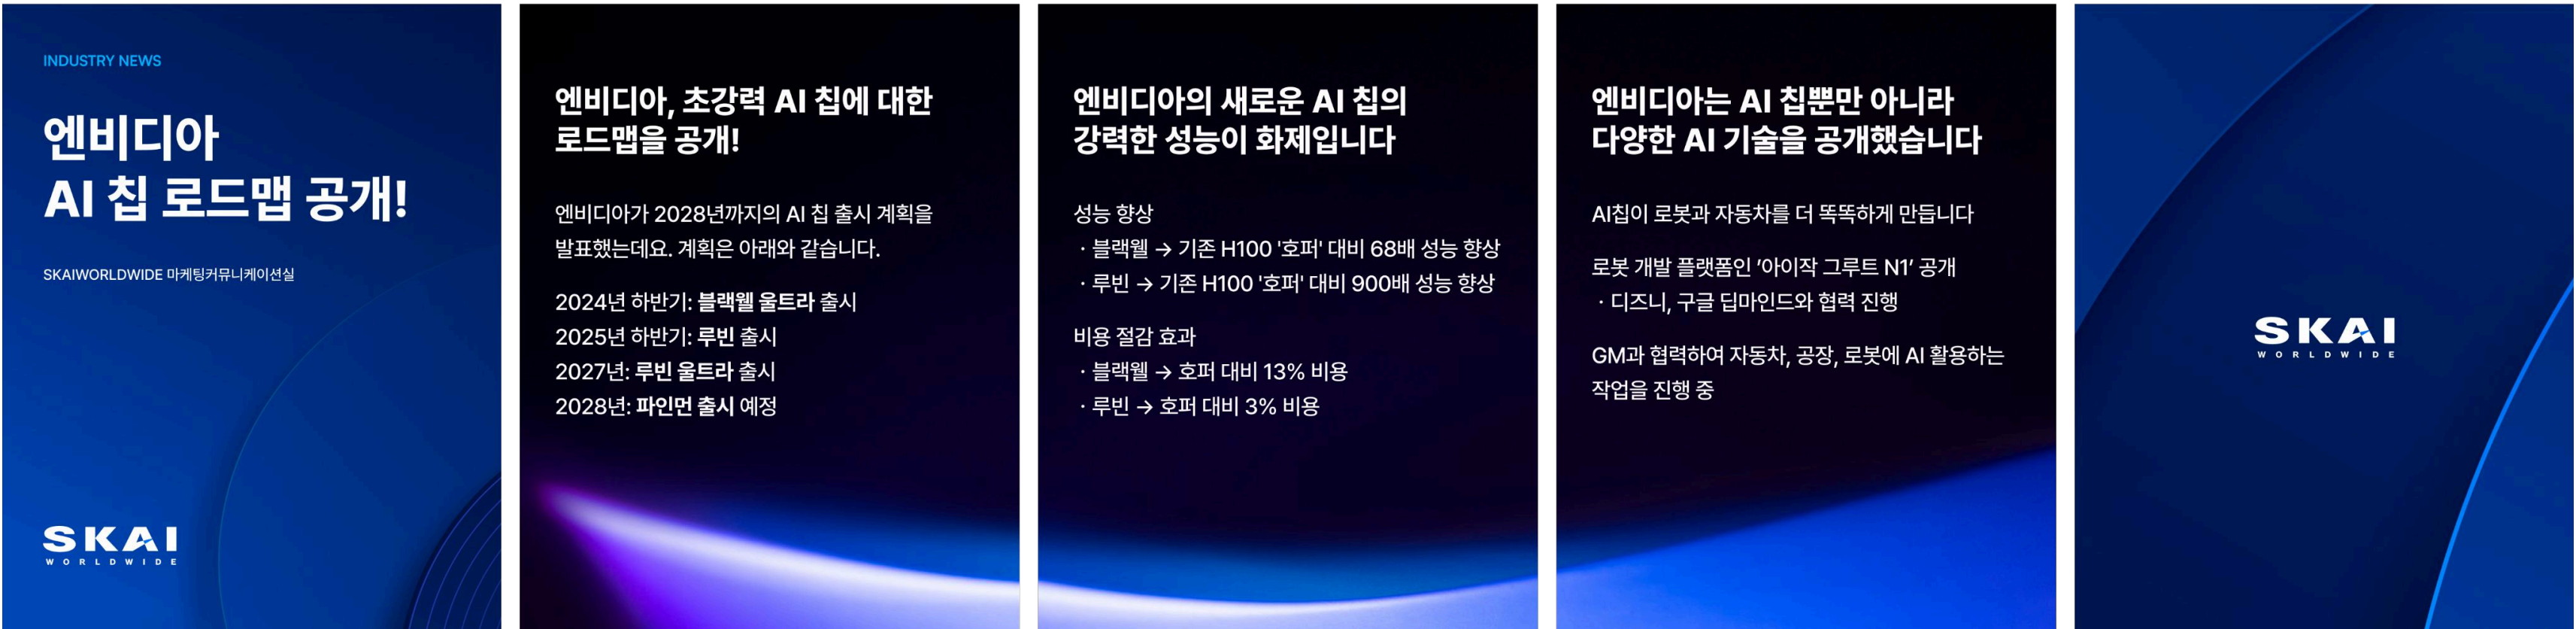

If an image with a contrasting tone to the example is used, it must be reviewed and approved by the Marketing Communications Department, which oversees brand management.

Application Example_Industry Trend, Conveying Messages on the Future Direction

Use dark colors such as Midnight and Limitless Blue—representing "Limitless," the core SKAI brand value of infinite possibility—in background designs for posters, banners, and related materials.

Keywords: Universe, Planetary Skyline, Planets, Aurora, Black Hole, White Hole

If an image with a contrasting tone to the example is used, it must be reviewed and approved by the Marketing Communications Department, which oversees brand management.

Investment Point 4

SKAI

NVIDIA-Certified AI Model : Leading the Way for Omniverse Retail Partnership

1) Building a Product Data Flywheel

Our company creates 3D digital twins of luxury products, enabling us to produce highly accurate product data. Over time, we have built a large collection of high-quality 3D assets, verified by top luxury brands. In the process, we’ve developed advanced technologies like procedural material generation, texture mapping, and vector reconstruction to enhance asset quality and scalability. SKAI is also developing a digital material library that catalogs key luxury materials such as gemstones, precious metals, exotic leathers, and composites.

In addition to 3D assets, we own high-quality brand-approved advertising videos featuring expert camera work and lighting techniques. These assets are essential for training AI models in lighting and camera work, making it difficult for competitors to replicate our capabilities without deep brand collaboration. Using our proprietary technologies—automated 3D scanning, standardized model processing, and material parameterization—we efficiently generate a variety of assets and large-scale training data. By combining material parameterization with standardized modeling, we offer luxury brands more efficient and cost-effective solutions, lowering collaboration barriers and accelerating innovation.

2) Proprietary Model Training Approach

Our key advantage is eliminating high-quality 3D asset data as a bottleneck in model training. SKAI is pioneering more efficient data processing methods and developing cutting-edge technology to swiftly transform raw 3D asset data into visual representations. To achieve this, we have formed an exclusive collaboration with NVIDIA's Omniverse platform to tackle challenges in high-speed 3D asset rendering, such as material loss and data format conversion errors.

Additionally, SKAI is co-developing a model training framework within Omniverse. Since Omniverse itself does not build these features but instead fosters an open ecosystem for key ISVs (Independent Software Vendors), our partnership stands as a significant competitive advantage.

독창적인 AI 모델 아키텍처 구축 및 엔비디아와의 옴니버스 리테일 파트너십 논의

1) 상품 데이터 플라이휠 구축

자사는 명품 제품의 3D 디지털 트윈(3D Twin Asset) 제작 역량을 보유하고 있으며, 이를 통해 고도로 정밀한 상품 데이터를 생성할 수 있는 기술적 능력을 갖추고 있습니다. 기존 사업을 통해 브랜드별로 검증된 고품질 3D 자산을 대량으로 축적하고 있으며, 이 과정에서 프로시저럴텍스처(Procedural Material/Texture), 벡터 재구성(Vector Restructure) 등 전문적인 기술을 개발해 왔습니다. SKAI는 각 럭셔리 브랜드의 핵심 소재(보석,귀금속,특수 가죽,복합 소재 등)에 대한 독점적인 디지털 벡터 소재 라이브러리를 구축하고 있습니다. 또한,브랜드의 공식 검수를 거친 고품질 광고 영상 데이터를 보유하고 있으며,이는 브랜드 전문팀(VM팀,크리에이티브팀,콘텐츠팀)이 인정한 카메라 워크와 조명 기법을 포함하고 있습니다.

2) 독점적인 모델 학습 방식

고품질3D 자산 데이터가 모델 학습의 병목이 아니라는 점이 우리의 강점입니다. SKAI는 더욱 효율적인 데이터 처리 방식을 연구하며, 보이지 않는 3D 자산 데이터를 빠르게 시각적 데이터로 변환하는 기술을 개발하고 있습니다. 이를 위해, NVIDIA의Omniverse 플랫폼과 독점적인 기술 협력을 진행하여 3D 자산 데이터를 빠르게 렌더링하는 과정에서 발생하는 문제(소재 손실, 데이터 포맷 변환 오류 등)를 해결하고 있습니다. SKAI는Omniverse 기반의 모델 학습 프레임워크를 공동 개발하고 있습니다. Omniverse자체는 이러한 기능을 직접 개발하지 않으며,핵심 ISV(독립 소프트웨어 벤더)에게 개방하여 생태계를 구축하는 방식이기 때문에, 이 협력 관계는 매우 중요한 차별화 요소입니다.

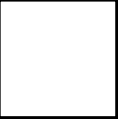

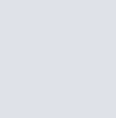

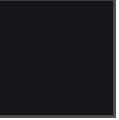

3) 차별화된 AI 모델 아키텍처

SKAI 3D AI 모델은 생성형 AI를 활용하여 CG 제작 프로세스를 완전히 재구성하는 복합 모델(Composite Model)입니다.단순한 AI모델 하나가 아니라,다양한 기능을 가진 모델들의 조합으로 구성됩니다.

- 스캐닝 제어 모델 (Scanning Control Model)
- 3D 복원 모델 (3D Reconstruction Model)
- 소재 생성 모델 (Material Generation Model)
- 조명 모델 (Lighting Model)
- 애니메이션 및 모션 효과 모델 (Animation & Motion Effects Model)

이러한 기술은 AIGC(생성형AI), 공간 지능(Spatial Intelligence), 구현 지능(Embodied Intelligence) 등 다양한 AI 기술을 포함하며, 기존의 텍스트, 이미지, 영상 생성 모델과는 다른 개념입니다.
